

· JESUS PROCLAIMED ·

ORANGETREE BIBLE CHURCH

Building Project

*"Unless the Lord builds the house,
those who build it labor in vain."*

Psalm 127:1

OUR FUTURE HOME

A Place to Gather, Grow, and Go

A Welcoming Presence in the Community

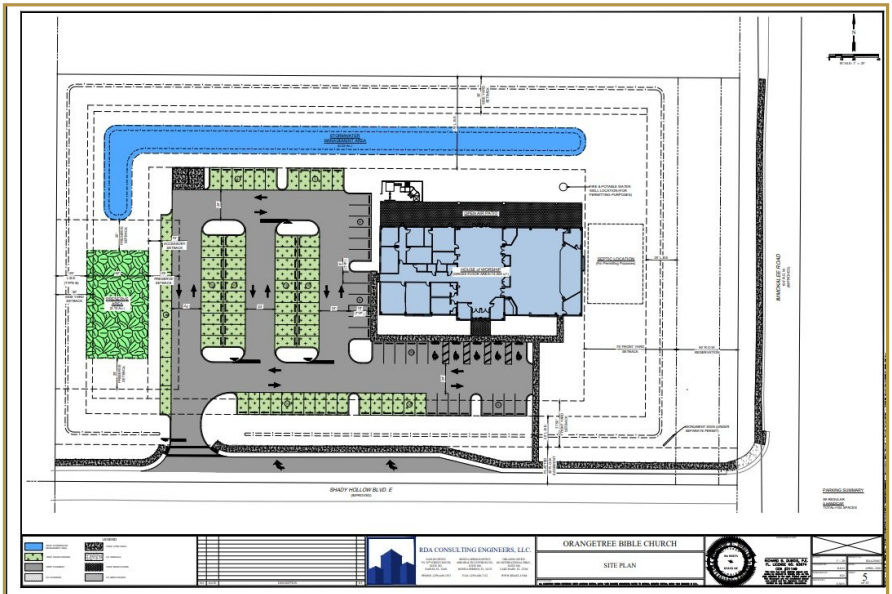

The new Orangetree Bible Church facility is designed to be a warm, welcoming landmark for the growing Orangetree community. The building features a soaring glass-and-steel entry, a prominent rooftop cross, and thoughtfully landscaped grounds — all signaling that this is a place where anyone is welcome to encounter the gospel.

Built to Serve for Generations

With a metal roof built for Florida's climate and durable stone masonry, this facility is designed to endure — a lasting home for worship, discipleship, and community ministry for decades to come.

THE SITE PLAN

Thoughtfully Planned for Ministry & Growth

Strategic Location & Thoughtful Design

Located at the corner of Shady Hollow Blvd. E and Immokalee Road, the property is positioned at the heart of the Orangetree region — ideally placed to serve the community's rapid residential growth.

Room to Gather & Room to Grow

The site plan includes ample parking, clearly marked traffic flow, green landscaped buffers, and a stormwater retention area — all designed to welcome hundreds of families while remaining a good neighbor to the surrounding community.

INSIDE THE VISION

Spaces Designed for Every Ministry

Aerial Floor Plan Overview

Welcome Lobby & Gathering Space

A Full-Featured Ministry Facility

From the soaring lobby - built to accommodate the Orangetree ethos of fellowship and Fellowship Meals - to the spacious worship auditorium, dedicated children's wing, commercial kitchen, and flexible classrooms, every space is designed to advance the gospel and build up the body of Christ.

Please pray for us, and consider giving financially to help Orangetree Bible Church raise \$5.5 million dollars to build a facility that will provide a gospel-preaching outpost in the Orangetree region until Jesus returns.
